

design: Erika Baffico, Sebastiano Tonelli
production: 2019

Nino is a pendant lamp comprising a painted metal shade and a concave pressed-glass lens. Its generous yet minimalist shape adapts to both residential and commercial settings, and its colour palette brings to mind the hues of sea, stone and fog.

The concave glass diffuser snaps into the lampshade, from which it slightly protrudes, creating a lens-effect that increases light diffusion, evoking headlight beams. The lamp's internal texture conceals the bulb; its exterior feels smooth to the touch.

technical details

type:
pendant

environment:
interiors

materials:
glass, metal, fabric

light source:
Led lamp 9W / E27 / 3000K
voltage 220-240V / 50HZ
not dimmable

sizes:
250 mm x 340 mm

weight:
6 kg

colours:

- fog white
- ionian blue
- basalt grey
