

ulla^{EN}

design: Erika Baffico, Sebastiano Tonelli
production: 2019

Ulla is a lamp with an enveloping shape, made of glass with a metal base. It is available for floor and table installation. Its transparency emphasizes the texture, comprising horizontal lines in relief that thin out upwards, reflecting a parametric algorithm that recreates the propagation of waves in the sea.

The luminous effect is emphasized by the frosted glass disc suspended in the centre that lights up evenly, beaming the light emitted by the base. The inclination of the lamp, its horizontal base and texture lines evoke the motion of liquid inside a tilted glass, giving the room a magical flair and soft tones.

technical details

type:
floor, table

environment:
interiors

materials:
glass, metal, fabric

light source:
custom Led / 13.5W / 3000K
voltage 220-240V / 50HZ
dimmable

sizes:
355 mm x 350 mm

weight:
6 kg

colours:

 fog white

 ionian blue

 otranto orange
